Mega Millions Jackpot Tops \$300 Million

TRENTON (Nov. 4, 2024) – A little more than a month after the Mega Millions jackpot was hit in Texas, the top prize has quickly grown above \$300 million, heading into the next drawing on Tuesday, Nov. 5.

At \$303 million, the current jackpot represents the fourth highest of the year. On Sept. 10, a Texas player drew the winning numbers for an \$800 million jackpot. In June, a player in Illinois hit \$560 million. And, of course, we all know about the \$1.13 billion jackpot a New Jersey player hit in March.

There was **one jackpot prizewinning ticket** sold in Texas for the Tuesday, Sept 10, drawing that matched five of the five white balls and the Gold Mega Ball drawn winning the **\$800,000,000** prize.

The next drawing is Friday, Nov. 1, at 11:00 pm. All New Jersey Lottery Mega Millions tickets must be purchased before 10:45 p.m. to participate in the drawing. Mega Millions tickets cost two dollars; by adding the Megaplier option for an extra dollar per play, players can increase their non-jackpot winnings up to five times. Mega Millions tickets are sold in 47 participating U.S. jurisdictions. Drawings are held Tuesdays and Fridays.
